### Cool - Hot imprints \*

mug price + imprint price + 2,20 EUR

Set up cost - 26,29 EUR/every colour

Cost of making digital proof - 13,14 EUR/ every project

### Prototype is manufactured on request only and charged for

This means that we manufacture a sample with imprint of the requested product on basis of the approved digital proof. The prototype allows the client to make changes to the imprint (size, number of colors, placement etc.). The prototype must be ordered separately each time. For each prototype the cost of each prototype is calculated individually.

### Pre-production sample is manufactured each time before producing the full order quantity on Ivory's cost

It is manufactured only after the client has approved the digital proof and placed an order. The purpose is only to approve the colors and quality of imprint compared to the approved digital proof. Pre-production sample does not give the client the possibility to make any changes to the imprint. The production of a pre-production sample means that Ivory has already manufactured the whole set of decal needed for the order

\* To benefit from the price from the next price range it is required that the order exceeds the minimum quantity for that level by at least 1 carton of mugs.  
The price might be subject to changes after we receive the artwork.
